### Twinkle, Twinkle, Little Star!

Maria Livers makes the supreme sacrifice. She allows her head to be bored out so the intricate mechanism of a "dummy" can be installed. As a result, the character of "Twinkle" has delighted several audiences over the past year. Early in September, Bob (the budding ventriloquist) and "Twinkle" will address a national convention of Bioethicists at the Cleveland Marriott. Won't that be interesting?
